

SMARTER WAYS TO WORK

FINN Additive System™ TACKIFIER

DESCRIPTION

FINN TACKIFIER is an organic tackifier manufactured in the USA and is specifically designed for use as a hydraulically applied erosion control tackifier. FINN TACKIFIER is used as a stand-alone temporary erosion control product or with wood, paper, or other native fiber mulches to provide superior bonding strength. FINN TACKIFIER is specifically designed to develop optimal slurry viscosity to improve spray ability and pump performance. FINN TACKIFIER disperses in water creating a lump free slurry, saving time and money.

APPLICATION & RATES

FIBER MULCH TACKING.....50 lbs. per acre for normal slopes
80-170 lbs. per acre for >2:1 slopes
STRAW/HAY MULCH BINDING.....50 lbs. per acre
SOIL STABILIZATION.....50 lbs. per acre
80-170 lbs. per acre for > 2:1 slopes
MULCH SLURRY LUBRICANT.....1 lb. per 100 lbs. of mulch

PRODUCT REQUIREMENTS

N/A

PACKAGING

50 LB. BAG
