

SMARTER WAYS TO WORK

## FINN Additive System™ GreenPlus

GREENPLUS

### DESCRIPTION

FINN GreenPlus is a concentrated green dye used to improve the visual appearance of fiber and paper mulch. Most mulch is dyed green, but loses color quickly in sunlight. GreenPlus keeps the mulch looking green longer. As a tracer it also improves vis-ibility for uniform coverage patterns in all applications.

### APPLICATION & RATES

COLOR ENHANCEMENT.....5-16 OUNCES PER ACRE ACCORDING TO TANK SIZE

APPLICATION TRACER.....5-10 OUNCES PER ACRE ACCORDING TO TANK SIZE

### PRODUCT REQUIREMENTS

N/A
