

PERFECTION

General Description

Perfection is ideal for home and industry lawns, commercial and institutional use. It is also used for overseeding mid to high quality lawns. Perfection will produce a turf of medium to high density with an attractive, deep colour.

Usage

Use PERFECTION where a balanced mixture is required that will deliver a superior turf.

Adaptation

- Benefits from good weed control throughout the establishment period
- Benefits from dethatching every second season
- Should be seeded on sunny, open areas or partial shade (40% reduced sunlight maximum)
- Should be fertilized at medium to high levels of nitrogen annually (i.e. 1.5 – 2 kg/100m²)

Mixture

40% Mercury Kentucky Bluegrass

20% Touchdown Bluegrass

30% Creeping Red Fescue

10% Fiesta III Perennial Ryegrass

Limitations

Not for full shade

Seed Rate

1.7 kg/100m² or 3.5 lbs./1,000 sq. ft.

** Mixture percentages and varieties may change at any time*
